Social enterprises in Ukraine aim to tackle multiple social and economic challenges, targeting various combinations of SDGs.

Most social enterprises operate with a small team of up to 6 people.

70% of social enterprises had sales revenues of up to €25,000 in 2020, indicating a low volume of sales, further impacted by the COVID-19 crisis.
TO ACHIEVE LONG-TERM SUSTAINABILITY, GROWTH AND INCREASED SOCIETAL IMPACT, SOCIAL ENTREPRENEURS NEED SPECIFIC SUPPORT FROM INVESTORS FOR IMPACT.

Most of the social entrepreneurs in Ukraine seek investments for infrastructure costs as well as working capital.

76% reported that the size of investment they seek is below €50,000, indicating an early-stage market.

A majority of social entrepreneurs prefer grants or an investment by social/impact investors, as well as government funding, for the further development of their business model.

Sales and marketing are the main areas where social enterprises need non-financial support.
